Assessment:

A careful study of the above statistical data of alumni displays that the performance of teachers is excellent in some areas like Overall Rating of Campus, Course help in developing student personality and Teaching Methods and effectiveness etc.

There is strong need for more improvement in the parameters like Innovative Teaching Methods, Availability of Reading Material, Guidance and Placement, Co curricular and Extracurricular Activities etc.

The situation in some areas like Responses to Co curricular and Extracurricular Activities, Availability of Reading Material and Innovative Teaching Methods is highly unsatisfactory and disappointing and needs to be taken care of immediately.

In overall assessment based on the above feedback of the Alumni, teachers should concentrate more on the Innovative Methods, Learning Material, Guidance and Placement and Overall Ratings of Campus etc.
